# Imagine the movie you'll make...

**ScreenDreams Entertainment gives your team the chance.**

Make a movie. Work with real filmmakers. Stretch your team's creativity and communication skills. Flex your right-brain muscles. Tick off all the boxes for a successful off-site. Be a hero, be the bad guy, the wizard, the monster. Be Dirty Harry, Pretty Woman, Captain Kirk... make a fool of yourself. Spoof your company's kitchen rules. Feel the thrill of risking creative ideas. Experience your team's excitement when you watch your movies up on the silver screen.

## What's your biggest challenge?

If you're like most businesses, it's all about people. Although every company says, "Our people are our greatest asset," inspiring and maintaining creativity, communication and teamwork are constant challenges. That's what Fast Co., Business 2.0 and other top business magazines say. But how do you create a team when there's no water cooler, when there are no stories?

Tired of rock climbing, sailing and all the other usual team building exercises? You've tried them all. The 15 Minutes of Fame workshop will explode your team's creativity - and it's lots of fun! Making a movie is a great team activity that challenges everyone to participate. Available as a full-day or half-day workshop. The 15 MoF team provides everything - we even screen your films at the end of the day so that your team can enjoy the laughs together, and choose Best Picture, Actor and Actress awards. *Warning: 15 Minutes of Fame is addicting! Your team will never attend those same old workshops again.*
